Profile

Senior in Computer Science at the University of Kansas pursuing interests in mobile software and its applications, along with entrepreneurial endeavors.

Experience

Founder - Caliber Contracting (KU Catalyst Program), Kansas City, KS — Pres.
Contracting agency focused on pairing highly developed Computer Science students with businesses of all sizes in need of software development work.

Software Engineer Intern - Cerner, Kansas City, MO — May '15 - Aug '15
Worked on an iOS and Apple Watch app, HealtheLife, developing new features. The app has over five million users. Also worked in a Django and Rails stack to implement new API's exposed to the iOS and Watch app.

Software Consultant - Multiple Clients, Kansas City, KS — Dec '13 - Present
Worked for multiple clients building iOS, Android, and Web apps of various sorts. Clients include Passel, Bishop Kelley, and PrepsKC.com. Lead and managed the entire development of Passel, developed initial iOS app for Bishop Kelley, and iOS and Android app for PrepsKC.com.

Software Engineer Intern - Knoda, Kansas City, KS — May '14 - Aug '15
Startup focused on building a social network based on pop culture predictions. Developed and contributed to the building and debugging of the iOS, Android, Web, and API service products. Mainly worked with Objective-C/Swift, Ruby on Rails, Java, and Git. Along with development, was exposed to fundraising, and product management.

Software Engineer Intern - Cerner, Kansas City, MO — May '13 - Aug '13
Collaborated with the Physician Strategy Team to create the first open-sourced container for web apps using Cerner patient data. Worked in collaboration with Boston Children's Hospital.

Education

University of Kansas, Lawrence, KS — B.S. in Computer Science, 2016

Activities

Self Engineering Leadership Fellows (SELF) Program - Fellow in highly selective developmental program aimed at cultivating the business leaders of tomorrow.

Disruption Institute - Weekly mentor teaching iOS programming at Kansas City's premier code school for working adults.

ACM, Association of Computer Machinery - Web chairman at KU's foremost computer science organization.
